“PROMOTE AN ENVIRONMENT WHERE COMMUNICATION IS CLEAR”

- ...and where value, inclusiveness, and connectedness are felt.

- CANSO moved to Montreal!

Why?

Benefit: closer proximity to ICAO, ACI, and IATA: our partners in collaboration.

- With this has come some CANSO restructure:

GreenATM will move into the Operations Programme.

As more details come my way, I will ensure this information is communicated, and I will rely on chairs to share updates with their respective workgroups.

CONSIDERATIONS FOR MANAGING SPACE OPERATIONS

SHAPING
OUR
FUTURE
SKIES

canso.org

WHAT WAS ACHIEVED?

Advance operational excellence with practical tools that support digital transformation, ATFM readiness, and the integration of environmental and space operations.

Nomination Questions for CANSO Operations Programme

1. What specific contributions have the nominee made to the CANSO Operations Programme or their Workgroup that justify this nomination?
Please highlight notable achievements, initiatives, responsibilities or cross-collaborative efforts within the Operations Programme or other global and regional Programmes.
2. How has the nominee's work positively impacted the Workgroup and/or the broader Operations Programme? You may include examples of outcomes, improvements, collaboration, leadership, or innovative approaches where relevant.
3. How has the nominee demonstrated dedication to the CANSO Operations Programme? This may include sustained engagement, willingness to take on additional responsibilities, problem-solving, or support to peers.
4. Is there anything else you would like to share that supports this nomination?
