

## Provider of the:

Produced in partnership with **CANSO** | **infina**

Infina is a trusted aviation business solutions provider with over 30 years of experience, specializing in training development, delivery, and modernization. As a long standing partner to the Federal Aviation Administration (FAA), Infina has delivered a wide range of instructional programs, including Recurrent Training for Air Traffic Controllers (ATCOs). This depth of experience supporting operational workforces forms the foundation of our global training offerings.

Infina proudly provides the **ANSP Learning Portal (ALP)**, a modern digital learning platform developed in partnership with **CANSO** to support Air Navigation Service Providers worldwide. ALP offers an ever growing **online library of 63 microlearning courses - including 41 in English and 22 in Spanish** - organized into the following operational categories:

- Human Factors
- Runway Safety
- Communication
- Weather
- Emergencies
- For ATCOs From Pilots (pilot insight modules designed to strengthen controller pilot understanding)

All ALP courses are **ICAO-aligned**, scenario-based, and available **24/7**, delivering high quality, operationally learning that supports continuous proficiency and complements national training programs.

## INTRODUCING - À LA CARTE ON-DEMAND MICROLEARNING

To give ANSPs complete control of their learning strategy, ALP introduces a flexible **À La Carte On-Demand Microlearning** model. ANSPs select:

- The courses their ATCO(s) will take
- The number of ATCOs to enroll
- The access duration that fits their operational schedule

This model adapts to real world staffing constraints and operational rhythms, ensuring training remains targeted, accessible, and manageable.

## WHY ANSPS CHOOSE ALP

- Flexible, **AI supported** planning and course selection
- **ICAO-aligned**, role specific microlearning
- Tailored access durations
- Custom pricing based on courses, number of ATCOs, and duration
- Seamless scalability from a single ATCO to a full workforce

There are **no preset bundles**—each ANSP receives a training plan purpose built for its operation.

## INFINA + CANSO: A MODERN GLOBAL TRAINING SOLUTION

Combining Infina's three decades of FAA training expertise with CANSO's global reach, the ANSP Learning Portal provides a next generation learning experience for ATCOs worldwide. Whether supplementing recurrent training, supporting competency requirements, or providing flexible online development, ALP delivers consistent, high quality content wherever and whenever it is needed.
