

## FULL MEMBER FEES 2023

The membership fee for an individual air navigation service provider comprises a global membership fee and, if applicable, a regional contribution. The global CANSO membership fee is calculated on the basis of the ATM related turnover of the applicant air navigation service provider. Annual ATM turnover refers only to the annual revenue collected from air navigation charges (en-route, approach and/or aerodrome). This excludes non-ANS airport charges such as parking and passenger charges.

A regional contribution represents a Member's share of a region's annual budget and will be explained by the relevant region director during the membership application process.
