

## AirNav Ireland welcomes the CANSO Global Safety Conference 2023 to Dublin

---

**Dublin, Ireland, 28 November 2023** – AirNav Ireland is delighted to host the Civil Air Navigation Services Organisation (CANSO) Global Safety Conference 2023, in Dublin from 27 to 30 November. The conference brings together aviation professionals from around the world to discuss and collaborate on safety and technological advancements in air traffic management and air navigation services.

The CANSO Global Safety Conference 2023 is an invaluable platform that enables industry experts to share their knowledge, insight, and best practices, contributing to the overall enhancement of safety and efficiency in the aviation sector. With a strong focus on innovation, cooperation, and safety, this event aligns seamlessly with AirNav Ireland's mission to ensure the highest levels of safety and operational excellence are applied to air traffic management.

Dr. Peter Kearney, CEO of AirNav Ireland, expressed his support for hosting this prestigious event in the Irish capital: "We are honoured to welcome the CANSO Global Safety Conference 2023 to Ireland," he said. "This conference plays a pivotal role in shaping the future of aviation safety, and is a testament to our commitment to excellence in air navigation services.

"At AirNav Ireland, we believe that the exchange of ideas and knowledge is crucial in driving progress and enhancing the safety and efficiency of our airspace. We look forward to facilitating meaningful discussions and collaboration during this conference."

Jack Chambers, Minister of State at the Department of Transport for Ireland, who will be speaking at the conference, also shared his thoughts on this significant event: "The CANSO Global Safety Conference 2023 coming to Ireland is evidence of our nation's continued importance in the global aviation industry. This event will provide a unique opportunity for experts to explore the latest developments in air navigation services, aligning with the industry's commitment to safety and innovation."

"We are delighted to welcome aviation professionals from across the globe and look forward to the fruitful discussions that will take place."

"Organising the CANSO Global Safety Conference 2023 in Dublin in partnership with AirNav Ireland is a great honour for us," commented Simon Hocquard, CANSO Director General. "This event is crucial for aviation professionals worldwide to discuss safety and technological advancements in air traffic management. Our collaboration reflects a joint commitment to excellence in air navigation services, emphasising the importance of knowledge exchange and discussions to enhance safety and efficiency in our airspace."

"We look forward to the meaningful dialogue that will no doubt take place during this conference."

The CANSO Global Safety Conference 2023 promises to deliver a diverse programme covering a wide range of topics, including emerging technologies,

data-driven solutions, and safety culture within the aviation sector. Delegates will also have the opportunity to engage in panel discussions, workshops, and networking sessions with some of the most influential figures in air navigation services.

## NOTES FOR EDITORS

### About CANSO

CANSO – the Civil Air Navigation Services Organisation – is the global voice of the air traffic management (ATM) industry and is shaping our future skies. Our members support over 90% of the world's air traffic and include air navigation service providers, airspace users and operators, manufacturers and aviation industry suppliers. We raise the bar on global ATM performance by connecting the industry to share knowledge, expertise and innovation.

### About AirNav Ireland

AirNav Ireland is a commercial semi-state company employing approximately 600 people at six locations around Ireland. AirNav Ireland has one primary function, which is to provide air traffic management and related services within the 451.000km<sup>2</sup> of airspace controlled by Ireland. To facilitate this, we employ over 290 air traffic controllers in Dublin, Cork and Shannon and 50 radio officers in Ballygirreen, Co. Clare to ensure the safe, orderly and expeditious flow of air traffic.
