OUR REGIONS

Leveraging our Local Expertise

CANSO has five defined regions designed to support members across the world:

- **AFRICA** (office in Johannesburg)
- **ASIA PACIFIC** (office in Singapore)
- **EUROPE** (office in Brussels)
- **LATIN AMERICA** (office in Miami)
- **MIDDLE EAST**
- **Euro/Central Asia**

WHAT CANSO COULD CONTRIBUTE

To support the development of regional civil aviation, CANSO could actively pursue and facilitate:

Closer relations with neighboring ANSPs in the Central Asia region (e.g. Caucasian countries, Turkey, Middle East,...etc)

Collaborative regional projects focusing on air route development, procedures, flow management, and ATM / CNS technologies

Promote sharing of best practice to enhance safety, effective airspace utilisation, and overall aviation activities.

Additionally, facilitating transit overflights through the airspace of Caucasian and Central Asian countries will meet the needs of airspace users.
