Melbourne, 7 October 2024 – Adacel is pleased to announce it has signed a collaboration agreement with ADB SAFEGATE to pursue advanced integrations between their respective portfolios, including ADB SAFEGATE’s OneControl, Integrated Controller Working Position (ICWP), and Adacel’s REVAL Digital and Remote Tower platform coupled with its simulators and ATM systems.

This partnership between Adacel and ABD SAFEGATE brings together best-in-class technologies and expertise from both companies to deliver cutting-edge solutions for the future of air traffic control. Adacel’s advanced air traffic management systems, combined with ADB SAFEGATE’s comprehensive airfield technology and airport operations experience, aim to provide an innovative digital tower platform to enhance operational efficiency and safety. This partnership is forged with the aim of harnessing the multiple joint synergies with our shared customers and prospects worldwide. Particularly in Asia, Adacel and ADB SAFEGATE are cooperating exclusively on a

pivotal IDTS (Integrated Digital Tower System) program by the Civil Aviation Authority of Singapore (CAAS) to revolutionize air traffic management by leveraging digital solutions to meet the increasing demands of Singapore's aviation sector. This collaboration underscores both companies' commitment to advancing aviation technology and innovation on a global scale.

"We are thrilled to collaborate with ADB SAFEGATE on this ambitious program," shares Daniel Verret, Adacel's CEO. "The IDTS initiative offers a tremendous opportunity to showcase how digital tower solutions can transform air traffic management, and together with ADB SAFEGATE, we are committed to delivering unparalleled value to CAAS Singapore and customers globally," continues Mr. Verret.

"This strategic partnership with Adacel aligns perfectly with our vision to shape the future of airports through innovation," shares Laurent Dubois, CEO of ADB SAFEGATE. "We are excited to join forces with Adacel to drive this transformation," continues Mr. Dubois.

The collaboration between Adacel and ADB SAFEGATE reinforces the companies' shared dedication to advancing next-generation air traffic solutions and ensuring the continued growth and sustainability of global aviation.

About Adacel:

Established in 1987, Adacel is a publicly traded company listed on the ASX. The company plays a significant role in global air space safety. A world-leader in its industry, Adacel applies cutting-edge technologies to develop advanced air traffic control simulation and training systems and state-of-the-art air traffic management solutions. Adacel's customers include international air navigation service providers (ANSPs), military, defense & security organizations, universities, and airport authorities.

More than 20% of the world's airspace is managed with Adacel's Aurora ATM software. Adacel's MaxSim Tower Simulator and Training systems lead the industry with the highest number of installations worldwide. MaxSim is also the first air traffic control (ATC) simulation system in the world to deliver Virtual and Mixed Reality training capabilities into the classroom. Adacel's latest flagship system, Reval, a digital ATC tower system delivers a wide spectrum of digital tower operational solutions, from consulting services to system design, development, deployment, and support. For more information, please visit www.adacel.com.

About ADB SAFEGATE:

ADB SAFEGATE provides integrated solutions that raise efficiency, improve safety, boost environmental sustainability and reduce operational costs for airports, airlines and ANSPs. The company works with airports and airlines to solve operational bottlenecks, helping them navigate today's challenges and prepare for tomorrow. Solutions encompass airfield lighting, power and control systems, smart airport and tower software solutions, intelligent docking automation and aftermarket services.

ADB SAFEGATE is dedicated to providing its customers with the most environmentally friendly products, thereby enabling them to continuously improve the ecological footprint of the air transport industry.

With 1,250+ employees, ADB SAFEGATE serves over 2,700 airports in more than 175 countries, from the busiest and largest like Atlanta, Beijing, Dubai, Heathrow, Charles De Gaulle, Frankfurt, Istanbul, New Delhi and Changi to fast-growing airports across Asia and Africa.
